

Winemakers throughout the world have been putting their trust in FERMIVIN yeasts since the 1970s. They can be used to produce all styles of wine, meeting market and consumer demands.

OENOBRANDS is proud of this heritage and draws on over 40 years' accumulated experience to continue developing new fermentation solutions. FERMIVIN yeasts are selected in collaboration with wine growers and technical institutes. They are then cultivated, dried and checked in our factories to ensure their authenticity, high performance and quality.

TS28

Saccharomyces cerevisiae var. cerevisiae
2868 - SELECTION IFV - FRANCE

FOR AROMATIC AND CRISP SAUVIGNON BLANC TYPE WINES

WINEMAKING

Fermivin® TS28 optimizes the release of thiol-type aroma precursors: boxwood, gooseberry, mineral (stone, flint). It is therefore ideal for producing medium-range and high-end wines. Fermivin TS28 also helps achieve roundness and hence a balanced mouthfeel. Adding suitable nitrogen nutrients, such as Natuferm®, optimizes Fermivin TS28's aromatic potential.

SCIENCE & TECHNOLOGY

As a result of its β -lyase activity, Fermivin TS28 is very effective at bringing out varietal aromas, especially 3MH and 4MMP.

TASTING NOTES

Intense white wine with hints of boxwood, gooseberry, mineral (stone, flint).

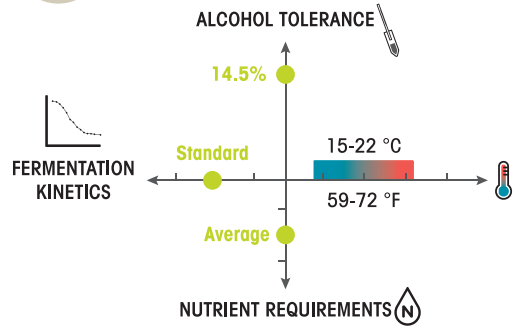

A TESTIMONIAL

« This strain **Fermivin TS28** gives excellent aromas, with blackcurrant bud hints and remarkable volume. Very elegant and modern! »

A winemaker from Styria, Austria.

OENOLOGICAL PROPERTIES

METABOLIC CHARACTERISTICS

SO ₂ production	< 10 mg/l
Glycerol production	6 – 8 g/l
Volatile acid production	< 0.31 g/l
Acetaldehyde production	< 35 mg/l
H ₂ S production	Average
Killer factor	Killer K2

HISTORY & DEVELOPMENT

Strain **2868** was selected and validated by the IFV (French Vine and Wine Institute) in the Loire Valley (Muscadet - France).

DOSE & PACKAGING

Fermivin TS28 contains more than 10 billion active dry yeast cells per gram.
Recommended dose: 20 g/hl.
Packaging: 500 g and 10 kg vacuum-sealed packets.
Must be stored in its sealed, original packaging in a cool (5-15 °C / 41-59 °F) dry place.
